

KEEP YOUR EBT CARD SAFE!

Beware of card skimmers!

Anyone in Indiana using **Electronic Benefit Transfer** or a **Hoosier Works Card**, be aware that there are criminals working hard to get your information to **steal your EBT benefits**. There are **steps you can take** to protect your SNAP and TANF benefits!

EBT benefits are getting stolen through skimming devices—plastic pieces snugly placed on retailer terminals to clone your EBT card information, including your PIN.

1. To prevent card misuse, change your EBT PIN after every use.
2. Check your account regularly for unauthorized transactions.
3. Some terminals have a pinhole camera hidden on the device that is hard to see. Remember to always use your hand to cover the keypad.

Always inspect a card reader before using it. If the device looks flimsy or you don't think it is a legitimate terminal, notify the store manager and contact the local police.

Protect your benefits: If you think your SNAP and/or TANF benefits have been stolen, immediately call the Division of Family Resources at
